Signature for RELEASE of Delivery of this Order — The driver of this truck is of the opinion that the size and weight of his/her truck may possibly cause damage to the premises and/or adjacent property(ies) when placing the material in this load where the customer desires it. It is our wish to help you in every way that we can, but in order to do this the driver is requesting that you sign this RELEASE relieving him/her and the supplier from any responsibility from any damage that may occur to the premises and/or property, buildings, sidewalks, driveways, curbs, etc. by the delivery of this material, and that you also agree to help remove mud from the wheels of the vehicle (if necessary) so that it will not litter the public street. Further, as additional consideration, your signature agrees you to indemnify and hold harmless the driver of this truck and the supplier for any and all damage to the premises and/or adjacent property(ies) which may be claimed by anyone to have arisen out of delivery of this order.

Reference: Standard Specifications 1-09.2, Construction Manual Section 10-2.2

In accordance with 1-09.2(5) once a week use one of the following three methods to determine if the scale is operating within one-half of one percent of the weighed load.

1. Weigh a loaded truck on a separate certified platform scale designated by the Contractor for the purpose of scale verification.
2. Weigh a vehicle, that weighs at least 10,000 pounds, on a separate scale and check the project scale with it.
3. Establish a certified fixed load weighing at least 10,000 pounds as a check-weight. The certification shall consist of an affidavit affirming the correct weight of the fixed load.

Use this space to describe the check method and show the computations for the percent of variance. Use a separate sheet for each additional scale check.

Time of Scale Check ☒ AM ☐ PM

Check Method Used ☒ Method 1 ☐ Method 2 ☐ Method 3

Vehicle Weight or weight of certified fixed load @ scale being used for project 98620 (a)

Vehicle Weight @ independent scale or weight of certified fixed load per affidavit 98900 (b)

Weight Difference |a-b| - 280 (c)

Difference (c) 280 Divided by weight of (a) 98620 x 100 = .28 % of variance
Scale Variation > .5% refer to Standard Spec. 1-09.2(5)

Independent Scale Tested By: Western Scale Cert. Date: 02-24-2028 Scale Location: WAPATO

Actions taken if out of tolerance:

In addition, periodic checks must be made throughout the day to see that the scale is balanced and returns to zero. If the scale does not return to zero, check for binding and/or clean the platform.

Time	Results	Time	Results

Abrupt stops by locking and holding brakes and large idling engines will affect the accuracy of the scales.

LAB/LOT NUMBER: _____ Certification #: _____

PROPER SHIPPING DESCRIPTION: Non-Regulated, Asphalt Product

Certification: Ergon Asphalt & Emulsions certifies that the materials provided under this bill of lading shall meet the standards of and were tested in accord with Ergon's Quality Control Plan submitted to the state and thereby conforms to the State of Washington's specifications. Ergon Asphalt & Emulsions tests in accordance with AASHTO/ASTM testing procedures or reasonable equivalents. The densities and Specific Gravity denoted are typical results. Product densities can vary through the processes of manufacturing, shipping, and handling.

This is to certify that the above named materials are properly classified, described, packaged, marked, and labeled, and are in proper condition for transportation according to the applicable regulations of the Department of Transportation.

Signature by Shipper _____

Cargo Tank Supplied By Carrier/Carrier Compliance to Laws - Where the cargo tank is supplied by the carrier, the carrier hereby certifies that the cargo tank supplied for this shipment is a proper container for the transportation of this commodity. This is to acknowledge that the carrier has in his possession or has been offered and accepted the required hazard materials placards and/or emergency response information.

This property described herein in apparent good order is received by the carrier shown on this Bill of Lading and the carrier agrees to transport the property to the consignee and the destination set forth herein subject to the classifications and tariffs, and the terms and conditions of the Uniform Domestic Straight Bill of Lading found in National Motor Freight Classification, in effect on the date of the issuance of this Bill of Lading or the applicable contract with shipper. It is further agreed by the carrier that the transportation of this shipment will be performed in compliance with all applicable rules, regulations and laws.

Signature by Motor Carrier _____
